

# How to Install: MobiLinc Connect Module

**NOTE: Please follow these steps prior to registering for a MobiLinc Connect account through the MobiLinc iOS or Android apps.**

---

**Step 1: Using a local PC or MAC launch the ISY Admin Console.**

<http://isy.universal-devices.com/994i/admin.inlp>

**Step 2: Verify your ISY controller has firmware 3.1.17 or later installed.**

*From the Admin Console Toolbar select "Help->About" to verify firmware version.*

**Step 3: From the Admin Console Toolbar select "Help->Purchase Modules".**

**Step 4: Purchase the Portal MobiLinc Connect Module from Universal-Devices.**

Portal Integration - MobiLinc Connect	Remotely connect through MobiLinc portal. No port forwarding necessary. <b>Note:</b> Please upgrade to 3.1.16 or above before installing this module. <b>MobiLinc service fees may apply</b>	\$1.00	Installed on 2011-12-30
--	--	--------	----------------------------

**Step 5: After purchase, select “Help->Manage Modules” from the Admin Console.**

**Step 6: The Admin Console will automatically install the MobiLinc Connect module and then reboot your ISY series controller.**

**Step 7: Verify the MobiLinc Connect Module is installed by selecting “Help->About” in the Admin Console.**

**Step 8: Launch MobiLinc and continue the registration process. MobiLinc will verify your ISY series controller has connected to the MobiLinc Connect Servers during the registration process.**
